Deborah,

Regarding ADEC taking the lead on Attu, that sounds fine with me. My only suggestion would be to contact Ray Golodoff with Atka, which you have already done. They would likely be the lead tribe during restoration activities, due to their proximity and Ray's good involvement with such work. Please also keep us in the loop.

Thank you for staying in touch with A/PIA regarding this project. We appreciate the efforts you have made to keep the tribes involved in the restoration process!

Respectfully,

Chris Riggio, A/PIA
